## MILIPOL PARIS

### 24TH EDITION - 18 TO 21 NOVEMBER 2025

PARIS NORD VILLEPINTE

#### AN EXCEPTIONAL EDITION WITH UNPRECEDENTED ATTENDANCE

The 24th edition of Milipol Paris, the global event for state internal security and safety, was held from 18 to 21 November 2025 at Paris-Nord Villepinte. Inaugurated by Laurent Nuñez, Minister of the Interior of the French Republic, the exhibition once again demonstrated its essential position within the security ecosystem, attracting 32,035 visitors this year, 44% of whom came from outside France, as well as 163 official delegations.

In a global context marked by the intensification of hybrid risks, geopolitical tensions and technological transformation, Milipol Paris 2025 saw a sharp increase in attendance, attracting industry players, start-ups, security forces, experts and public decision-makers who came to discover the innovations that will shape tomorrow's security policies.

The event highlighted advances in AI applied to security, sovereign cyber security, equipment dedicated to specialised interventions, anti-drone technologies, critical infrastructure protection and next-generation forensic technologies.

#### Key takeaways from the 2025 edition

This year, Milipol Paris offered a particularly rich programme:

- An enhanced Demo Arena, bringing together elite units, industry players and operators for demonstrations in real-life conditions.
- High-level conferences exploring the role of AI in homeland security, advances in forensics and digital investigation, the dynamics of organised crime, the challenges of cybercrime and digital evidence, and methods for identifying disaster victims. A packed programme covering all the operational and technological challenges facing the sector.
- A 'Crime Scene' area dedicated to investigation, sampling, analysis and forensic documentation technologies.
- A stronger international presence, illustrated by the diversity of delegations and exhibitors who came to present their innovations: of the 1,171 exhibitors present, 67% came from outside France.

## **A new strategic development for the Milipol brand**

The 2025 edition was also marked by a key milestone: the signing, on the first day of the exhibition, of the MOU formalising the creation of 'LAAD Sécurité Milipol Brazil', which will be held from 14 to 16 April 2026 in São Paulo.

This project is the result of a strategic partnership between the Milipol international network and LAAD, a major player in Latin America in the field of public security, as presented in the dedicated press release.

This new exhibition strengthens the international presence of the Milipol brand and represents an important step in the development of its network in high-growth regions facing major security challenges.

*"Milipol Paris 2025 confirms more than ever its role as the global reference platform for internal security. According to the Milipol 2025 study, the global market is now worth €739 billion, growing by 5.3% in 2024 after +4.9% in 2023.*

*This momentum is fully reflected in this 24th edition, marked by an exceptional mobilisation of industry players, start-ups, state security forces and international delegations. The scale of the exchanges, the diversity of the innovations presented and the quality of the operational demonstrations illustrate the vitality of a sector that has become a strategic pillar of sovereignty and resilience for states.*

*Milipol Paris thus continues its mission: to anticipate, inform and support developments in a sector facing increasingly complex risks, hybrid threats and accelerated technological transformation."*

## **ABOUT MILIPOL**

Milipol Paris, the global event for homeland security, is organised under the auspices of the French Ministry of the Interior.

Milipol Paris brings together security professionals from around the world — from both the public and private sectors — enabling them to find the equipment and technologies that meet their needs by uniting solution providers, manufacturers and distributors. For more than 30 years, the Milipol brand has been synonymous with high-quality international trade shows dedicated to homeland security. Over time, it has been proudly represented by Milipol Paris and Milipol Qatar, and more recently by Milipol TechX (MTX) and Milipol India. For more information: <https://www.milipol.com/>

## **ABOUT COMEXPOSIUM**

The Comexposium Group is one of the world's leading event organisers, creating events that bring communities together to discover and explore businesses, passions, and interests. Comexposium organises more than 150 professional and general public events, covering over 10 sectors of activity in 22 countries. The group connects 48,000 exhibitors with 3.5 million visitors, 365 days a year. In addition to its events, Comexposium creates experiences and opportunities for individuals to meet, enabling communities to connect throughout the year through an effective and targeted omni-channel approach.
